Donlan Lawyers

Overview

Joel practices primarily in Estate Planning and Deceased Estate Administration and is a member of the Society of Trusts and Estate Practitioners (STEP). He focuses on providing clear and concise advice regarding complicated estate planning and administration concepts to clients in an approachable manner.

Expertise

Deceased Estates

Joel is well regarded by his peers for his knowledge of probate practices and procedures and often provides advice to other law firms seeking assistance in more complex matters.

From obtaining Probate and Letters of Administration through to estate administration, Joel provides guidance to clients and ensures they understand the processes at what is already a difficult time following the death of a loved one.

Joel also advises clients in disputed estate matters and strives to achieve the best outcome for them in a sensible cost-effective manner.

Estate Planning

As everyone's circumstances are unique, Joel takes a thorough approach with estate planning to provide specific advice to clients and ensure that their needs are met. Joel has experience in the preparation of simple wills, Powers of Attorney and Advance Care Directives through to complex testamentary trust wills, protective trusts wills, family trusts and Deeds of Family Arrangements.

Practising exclusively in estate planning and administration since 2012 has allowed Joel to specialise in these areas.

Career Interest

Joel is involved in the Law Society of South Australia's Graduate Diploma of Legal Practice (GDLP) Wills and Estates course by designing and facilitating Probate workshops for Adelaide University Law students. He also presents to various groups on the importance of estate planning.
